Re: Stop Age-inappropriate Graphic Sex-Ed Curriculum 2014/2015

Dear Ontarians, Parents, Grandparents and any moral Fellow humans:

You may or may not be aware that young children (Grades 1-8) in Ontario will soon be forced to learn age-inappropriate graphic sex content starting September, 2015!

Here are some shocking excerpts from 2010 Ontario Sex-Ed Curriculum: “Gender identify and sexual orientation” at age 8; “Idea of dating” at age 9; “Masturbation is pleasurable and not harmful which many people will do” at age 10; “Anal sex, oral sex, vaginal intercourse” at age 12/13.

The content of the 2015 Sex-Ed Curriculum is yet to be released. However it has been hinted by both Premier Wynne and Education Minister Sandals that it'll be similar to that of the 2010 version. The process of the determining the new content is shrouded in secrecy, yet this “undetermined” content is to be released to schools across Ontario by fall 2015. The lack of transparency in this highly controversial education reform is suspicious and highly worrisome. If that happens as it is planned by Premier Wynne and Education Minister Sandals, our young children's innocence will be taken away, and their mind will be fed with age-inappropriate sexual information that they cannot comprehend properly at young age.

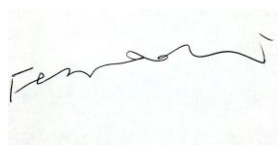

Please SPEAK UP to protect young children! You may talk or write to MPPs, Premier, Education Minister, any Canadian politician, teachers and school boards, etc.; you may use help from newspaper, TV programs, Radios and social media; you may also sign the online petition letter which has been signed by over 35,000 Ontarians. Here is the link:

Re: Stop Age-inappropriate Graphic Sex-Ed Curriculum and Protect Parental Rights

Dear Honorable Deb Matthews:

I am a mother of three children living in London, Ontario. I am not ashamed of my consciousness, moral integrity and judgment about Right or Wrong in terms of parenting. I choose when and how to teach my children age-appropriate topics, knowledge and behaviors. I believe these are my obligation and I have the parental rights to do so.

While all elementary schools around the world are teaching students to excel in reading, writing, math, science, art, music, gym and moral values, Ontario Premier Wynne and Education Minister Sandals are focusing on infiltrating our innocent children with graphic sexual images. This has outraged parents in 2010 and now again in 2014/2015! Here are some shocking excerpts from the 2010 Sex-Ed Curriculum: "Gender identify and sexual orientation" at age 8; "Idea of dating" at age 9; "Masturbation is pleasurable and not harmful which many people will do" at age 10; "Anal sex, oral sex, vaginal intercourse" at age 12/13. Education Minister Sandals stated that the 2015 version will be very similar to the one proposed in 2010 plus the addition of "sexual consenting".

Should young children in Ontario learn graphic sexual topics from their Grades 1-8 teachers? Compared to the fear of harms that might happen to my children from terrorism, drowning or car accident, I will be more worried and scared every day that my 12 year old will start to surf the internet on age-inappropriate sexual contents after being taught ideas at school that they could comprehend properly at their age!

Childhood innocence is that of a well-meaning heart, curiosity, imagination and care-free nature, but also a fragile mind that hasn't experienced the complexity of the world yet. Why would Premier Wynne and Education Minister Sandals want to take it away? Why are they ignoring the outcries and oppositions from millions of Ontario families and parents? Why do they want to plant age-inappropriate sexual ideas into the minds of young children? Why are they so eager to push young children towards sexual engagement? Why do they want to create more opportunities for STDs, HIV/AIDS and sexual predators? What's their real intention?!!

Feeling oppressed and helpless, I am turning to you, Honorable Deputy Premier, for help! I believe there is a purpose for you to be on your position as Deputy Premier, as Minister of Health, as former Minister of Children and Youth, as MPP of North London, and as a mother and grandmother. You have helped to make a difference for women, children and other Ontarians in many aspects of their lives. Now we need your help to stop promoting age-inappropriate sex education in young children and prevent harms due to age-inappropriate sexual contents. We also need your help to protect parental rights. The proposed Sex-Ed Curriculum content should be meaningful consulted with parents and the public, so that Ontario parents can decide if the contents are suitable for their children to learn or not. You will be appreciated and remembered by millions of Ontarian families and parents.

Thank you very much!

Sincerely,

Francie Si
Resident of London, Ontario
